### Event

The CRM\_InnoNet project - funded by the European Commission under the FP7 programme - is organizing the third Innovation Network Workshop in the field of substitution of critical raw materials. The event will be a show case of innovative substitution technologies that can be applied in different strategic sectors such as Energy, Transport and ICT and will include networking activities.

You can visit our website [here](#) with information and the key speakers' presentations of our first and second events attended by more than 140 delegates representing 110 organisations from 22 countries.

Register today [HERE](#) and stay tuned for the agenda that will be available soon on the [CRM\\_InnoNet](#) website. The attendance is free of charge<sup>1</sup>.

<sup>1</sup>The project can support some travel costs for attendees from SMEs. Please visit [http://www.criticalrawmaterials.eu/crm\\_innonet-travel-policy/](http://www.criticalrawmaterials.eu/crm_innonet-travel-policy/) for more information.
